EDUCATION

Savitribai Phule Pune University — Pune, Maharashtra
Bachelor of Engineering in Computer Engineering — *June 2024*
CGPA: 7.46

JSPM'S Jayawantrao Sawant Polytechnic — Pune, Maharashtra
Diploma in information technology — August 2021
Completed with distinction (84.2%)

PROFILE SUMMARY

- Bachelor of Engineering in Computer Engineering with strong skills in **data analytics, web development, artificial intelligence (AI), and machine learning (ML)**.
- Completed Internship at **Bajaj Auto Limited** in the **Human Resources domain**, worked on AI and ML projects, including an **Attrition Prediction System** to support data-driven workforce planning.
- Proficient in programming languages such as **Python, SQL, R, and C++**, and web technologies including **HTML, CSS, JavaScript, and Bootstrap**.
- Experienced in using Python libraries and tools like **NumPy, Pandas, TensorFlow, Matplotlib, Scikit-learn, XGBoost, SVM, and Random Forest** for developing ML models and data analysis projects.
- Certified in **Google Data Analytics and Python**, with practical experience in solving real-world problems through data-driven approaches and machine learning applications.
- Completed internships in **C++, web development, and cyber security**, including a project on **cyber-attack detection using machine learning**.
- Strong analytical thinking, communication, teamwork, and time management skills, focused on delivering impactful and innovative solutions.
- Actively seeking opportunities to apply expertise in **AI, ML, and data analytics** to drive digital transformation and business growth.

Experience

Bajaj Auto Limited | Dec 2024 – Dec 2025
HR Digitization Intern

- Collaborated with HR and IT teams to design and manage interactive **Power BI dashboards**, delivering real-time insights into critical HR performance metrics.
- Worked on multiple **AI and Machine Learning projects**, including developing an **Attrition Prediction Model** using **Python**, with key libraries such as **NumPy, Pandas, TensorFlow, Matplotlib, Scikit-learn**, **Xgboost, SVM, and Random Forest** to predict employee turnover and support strategic workforce planning.
- Performed advanced data analysis to extract actionable insights, enabling data-driven decision-making for HR strategies.
- Designed comprehensive reports and visualizations to communicate analytical results effectively to HR leadership.
- Contributed to digital transformation efforts by developing innovative solutions that improved HR process efficiency and automation

PROJECTS

Project: **Analyze and Forecast Cyber Attack Detection Using Machine Learning Techniques**

- **Objective**: Developed a machine learning model to detect and classify cyber-attacks based on network traffic data, enhancing security measures for networked systems.
- **Technologies Used**: Python, Tkinter, SQLite, Random Forest, Scikit-learn, PIL (Python Imaging Library)
- **Key Responsibilities:** ○ Implemented a user-friendly GUI for registration, login, and cyber-attack detection using Tkinter. Utilized the Random Forest algorithm to classify network traffic into categories such as DoS, PortScan, Bot, WebAttack, Brute Force, and benign. Achieved high accuracy in predicting and detecting various types of cyber-attacks, contributing to proactive threat management.

- **Outcome**: Successfully created a robust system capable of identifying and predicting cyber-attacks, providing an effective solution for network security management

SKILLS

- **Programming Languages**: Python, C++, SQL, R
- **Python Libraries & Tools:** NumPy, Pandas, TensorFlow, Matplotlib, Scikit-learn, XGBoost, SVM, Random Forest
- **Web Development**: HTML, CSS, JavaScript, Bootstrap
- **Data Analysis:** Machine Learning, Data Visualization, Data Cleaning, Data Wrangling, Statistical Analysis.
- **Cyber Security:** Network Security, Security Protocols, Vulnerability Assessment, Threat Analysis
- **Software:** Microsoft Office Suite (Excel, PowerPoint, Word)
- **Additional Skills:** Problem-solving, Teamwork, Customer Service, Communication, Time Management

Certifications

- **Google Data Analytics Certification**
  Completed a comprehensive course covering data analysis tools and techniques, including data cleaning, visualization, and analysis using Google tools and platforms.
- **Training from internshala in python**
  Achieved proficiency in Python programming, covering fundamental concepts, advanced techniques, and real-world applications.

Languages

- English, Hindi, Marathi, Spanish (beginner level)
